

Name: Buengrat Lily (1)

Class: 5B

## A Chinese Myth

Once upon a time, there were ten large suns. The weather was very hot. People were uncomfortable when working in the farm.

During daytime, people could not work outside. They stayed in the houses.

The flying dragon flew to this village. Then, it flew towards the sun and finally it ate and swallowed nine large suns. People were very happy to have only one sun. They worked together in the farm happily.
